

SITUATION SUMMARY

Weather of Concern

Northern California

- Temperatures are expected to fall into the middle 30s late tonight into Wednesday morning.
- A frost advisory has been issued for the interior valleys of Mendocino County where the growing season has begun.
- · The Redwood coast may see a few localized areas of frost as well.

Southern California

- Strong winds are expected along the desert slopes of the Riverside and San Diego County mountains this afternoon and evening.
 - Areas of west winds 20 to 30 mph with gusts 40 to 50 mph. Local gusts to 60 mph.
- A stationary low pressure system over the West will produce light showers most likely in the mountains and inland valleys today through Wednesday.
- Snow levels will fluctuate between 3500 and 4500 feet, with a few inches of snow possible above that elevation.
- · The low pressure system will move out Wednesday night.

Cal OES Recovery Staff

Two Cal OES Recovery Staff are deployed:

- Santa Cruz County Damage Assessment
- · Kyle Gleave
- · Donald Cardenas

Cal EOC Incident - 2014 Drought

SOC / Inland REOC remains activated in support of 2014 Drought.

Proclamations

- A Proclamation and supplemental letter from the City of Moraga has been received requesting CDAA Assistance for the sinkhole that occurred on 3/13. The Proclamation is dated 03/14/16.
- A resolution from Amador County has been received for tree mortality and bark beetle infestation. Amador County is requesting to be placed on the High Risk Counties list, funding for debris clearing activities, Federal Assistance and CDAA. The resolution is dated 02/23/16.
- A resolution from Tolowa Dee Ni Tribe, Del Norte County has been received for drought. Currently no assistance is being requested. The
 resolution is dated 03/29/16.

WEATHER

WEATHER SYNOPSIS BY REGION:

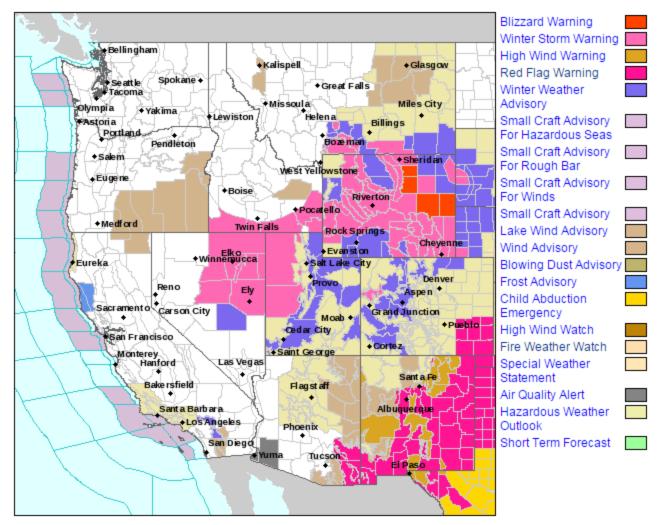

NORTHERN CALIFORNIA

A cold low pressure system will move through Northern California late this afternoon. Cool and breezy conditions will prevail across the Northern California region. Northerly surface winds will gust to 25-35 mph in wind-prone areas. Northern and eastern portions of the Northern California will be mostly cloudy with scattered snow showers, while the remainder of the region will be dry with partly cloudy skies. The low will continue moving east toward the Rockies on Tuesday, but conditions throughout Northern California will remain about the same as today, with slightly warmer temperatures in the partly cloudy areas. Snow levels in the northern and eastern areas will rise to around 4000 feet. By late Wednesday the low will form into a trough extending from Northern California to Southern California, leaving the region in a drier Northeast flow. At the surface Northeast to East winds will gust to 35 mph from the western Sierra slopes to the coast, and locally higher in wind-prone areas. Between now and early Wednesday, when the last showers between Susanville to Lake Tahoe dissipate, rainfall equivalent totals will be as much as 0.75 inches in eastern areas and less that 0.25 inches in far northern areas. Measurable precipitation is not expected elsewhere in the region. Thursday and Friday will be warmer and drier with light winds as high pressure passes overhead. A couple of weak fronts are expected to bring cooler and windier weather to Northern California next weekend, with spotty light rain.

SOUTHERN CALIFORNIA

Isolated to scattered light showers will continue across Southern California at times through Wednesday evening as an area of low pressure spins. Most locations will receive less than a quarter inch of additional rainfall. The snow level will be around 5,000 feet. Westerly winds of 20 to 30 mph with gusts to 50 mph will continue across the mountain ridges and desert passes through this evening. Temperatures will remain 5 to 10 degrees below normal through Wednesday, with 40s to low 50s across the mountains and upper 50s and 60s in the valleys. The low pressure area will drop into Southern California and a ridge of high pressure will build from the Pacific Ocean ending the shower threat across most of the region Thursday. However, isolated to scattered light showers will continue across the mountains of San Diego County through Thursday afternoon. The ridge of high pressure will bring significant warming and drying to most of Southern California Thursday and Friday, with warm and dry conditions continuing through this weekend. Maximum temperatures across the valleys of Southern California will reach the low 80s Friday through this weekend.

CAL OES 2014 DROUGHT

Cal EOC Incident - 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take
 place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services
 for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may
 put the following link to the brochure on their webpage http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 61 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 26 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 10 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tolowa Dee-ni' Nation (Del Norte), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

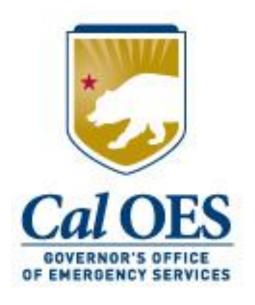

CAL OES Missions

Cal OES Missions

• 2016-LAW-22107, 3/28/16 @ 2330; AFRCC contacted the LDO and advised of an EPIRB sounding in Orange County. The signal has been going off intermittently dying out and then sounding again. AFRCC assigned mission #16M0180 and provided coordinates 3329.6N, 11737.6W. The coordinates plots in the middle of residential hill area. A CAP IC and team have been assigned and are working to locate and silence the signal. Mission Ongoing

Closed Cal OES Missions

• 2016-LAW-22100, 3/28/16 @ 2230 hours; Marin County Sheriff and Fire Department requested assistance in rescuing two people who were stuck on a cliff near Stinson Beach cliffs in Marin County. One victim was 500 ft. down the cliff and the other was 75 ft. above the water, coordinates 3756.426N 12246.046W. A CHP Helicopter was on scene providing light, but had no hoist capability. LDO contacted AFRCC who had been already been contacted by the CA Coast Guard for this mission. AFRCC accepted the mission #16M0179. CA Coast Guard was sent to assist and ultimately hoisted the two stranded people off the cliff. Mission Closed

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
